Certification By Registered Professional Engineer

I am familiar with the requirements of the Code of Federal Regulations, Title 40, Part 112 (40 CFR 112). My judgments are based on my examination of each area included in this spill prevention, control and countermeasure plan and on information provided to me by Company Name and the individual areas. This information is presumed correct.

This plan has been prepared in accordance with good engineering practice and with the requirements of the 40 CFR 112 (amended July 17, 2002). It is adequate for each area included. Adherence to the plan is the responsibility of Company Name and the individual areas.

Required testing is complete.
